**FROM EUROPE.**

New York, Dec. 18.—Steamship Australasian  
from Liverpool 5th inst., and Queenstown 6th,  
arrived at 6 o'clock this evening. She brings  
the following additional intelligence:  
The Asia, from Boston, arrived at Liverpool  
5th inst.

The great storm of the 3d inst., proved most  
disastrous to England both on sea and land.  
The damage to property was most extensive and  
the coast was strewn with wrecks. At Holy-  
head 54 bodies floated into the harbor, and  
many more were seen coming in. The pressure  
of the wind at Liverpool was greater than for  
years. There were many collisions and disasters  
in the Mersey. The American ship Weston  
Merritt was among those damaged by collision,  
but not seriously. The ship Pensacola was  
completely wrecked on Great Burbo Bank.  
Crew saved. The De Witt Clinton was totally  
wrecked off Frimley. Crew saved. The Mary  
Russell, from Liverpool for Bath, was towed  
back dismantled.

A letter in the Daily News says it is un-  
derstood that the new rebel privateer Rappahan-  
nock, which is still believed to be at Calais, is  
very fast, and charges that it was well under-  
stood at Sheerness what she was intended for.

The Pope of Rome had received a deputation  
from the confederates, who presented a letter  
from Jefferson Davis. It is believed the recep-  
tion had no official character, and that the let-  
ter was merely complimentary.

A great meeting at Preston passed a resolu-  
tion in favor of continued neutrality.  
Mr. Fould's financial statement shows that  
the accumulated deficits now reach 972,000,000  
francs, and a loan of 300,000,000 is proposed.  
The Mexican expenses at the end of the year  
will reach 210,000,000 francs.

More ships are fitting out to blockade the  
west coast of Mexico as far as Acapulco.  
The Paris Bourse was firmer; rents 67f. 10c.  
The position of the Danish-German question  
was unchanged. England and Russia are mak-  
ing movements for a pacific adjustment.

**BOLD RAID OF STUART'S REBEL**  
**CAVALRY.**  
Gallant Resistance of our Troops.

WASHINGTON, Dec. 18.—The Republican ex-  
tra has the following intelligence:  
"Lieut. Peck of the 2d regiment of District  
Volunteers has given us the particulars of a  
bold raid made by Stuart's cavalry last night  
on the Orange and Alexandria railroad, about  
one mile and a half beyond Fairfax Station.—  
The rebels, about 800 strong, and accompanied  
by the notorious Mosby, at 6 o'clock, attacked  
the guard upon the railroad at a point which  
was guarded by Co. I, of the 155th N. Y. re-  
giment. The company made a brave resistance,  
and were only captured by the cavalry forming  
a hollow square around them. The rebels had  
previously cut the telegraph wires, but word  
was conveyed as quickly as possible to Colonel  
Drew, in command of a battalion of four com-  
panies of the 2d District of Columbia Volun-  
teers, at Fairfax Station, and he started with  
his command to reinforce the attacked party.  
The progress of the train was stopped at Pope  
Run, where the rebels had burned the bridge  
and torn up the track for about two miles.

When Col. Drew arrived at Pope Run it was  
extremely dark and the rain poured down fur-  
iously. He fired several volleys at the rebels,  
which they returned. None of our men were  
wounded.

It was evidently the object of the raiders to  
capture a railroad train from Alexandria, load-  
ed with large quantities of provisions and for-  
age for the army, which was due at the time.  
The train happened fortunately to be an hour  
and a half late, and consequently escaped cap-  
ture. It is quite likely that the rebels com-  
mitted further outrages on the railroad beyond  
Pope Run, of which we have not been in-  
formed."

**The Capture of the Chesapeake.**  
The following statement is furnished us by a  
gentleman now stopping in our city, and an ac-  
quaintance of Lieut. Nichols:  
Lieut. Nichols, who captured the Chesapeake,  
is a Maine boy, and is a native of Searsport. At  
the commencement of this Rebellion, Lieut. N.  
was master of a fine ship, of which he was part  
owner, and upon his first arrival in an Ameri-  
can port, he left his vessel and enlisted in the  
Navy.

He has been in command of the U. S. ship  
Onward, until very recently, when he was  
transferred to the steamer Cherokee, now in  
Boston and nearly ready for sea. On hearing  
of the capture of the Chesapeake, he deter-  
mined to be sent in search of the pirates. The  
Ella and Anna was placed at his command, and  
the Chesapeake was soon made his prize.

Lieut. N. is a young man of great energy  
and devoted patriotism. We hope the Govern-  
ment will now appreciate his capacity by  
giving him a vessel adapted to cruise for the Al-  
abama—an honor he has long sought and so rich-  
ly deserves.

Those who know the Lieutenant, say there  
must have been some square talk when the  
Captain of the Dacotah ordered him to take  
ship and sail for the Queen's dominions. It  
seems that the Lieut. preferred to have the pi-  
rates in American waters, rather than to risk  
them with John Bull.—Bath Times.

A thick-headed squire being worried by Rev.  
Sidney Smith in an argument, took his revenge  
by exclaiming: "If I had a son who was an  
idiot, I would make him a parson." "Very  
probably," said Sydney; "but I see your father  
had a different opinion."

Col. John D. Rust has resumed command of  
the 8th Maine regiment, which is now at Beau-  
fort.

Col. Fessenden's regiment is nearly full, and  
is expected to be ready to enter the service the  
first of January.

JOHN BRIGHT ON THE STRENGTH OF OUR GOVERNMENT.—John Bright closed his recent speech at Rochdale with the following noble tribute:

"Will anybody deny that the Government at Washington as regards its own people is the strongest Government in the world at this hour? (Cheers.) And for this simple reason, because it is based on the will, and the good will, of an instructed people. (Cheers.) Look at its power! I am not now discussing why it is, or the cause which is developing this power; but power is the thing which men regard in these old countries, and which they ascribe mainly to European institutions; but look at the power which the United States have developed! They have brought more men into the field, they have built more ships for their navy, they have shown greater resources than any nation in Europe at this moment is capable of. Look at the order which has prevailed at their elections, at which, as you see by the papers, 50,000 or 100,000 or 250,000 persons voting in a given State, with less disorder than you have seen lately in three of the smallest boroughs in England—Barnet, Windward, and Andover.—(Laughter and cheers.) Look at their industry. Notwithstanding this terrific struggle, their agriculture, their manufactures, and commerce proceed with an uninterrupted success. They are ruled by a President chosen, it is true, not from some worn out Royal or noble blood, but from the people, and the one whose truthfulness and spotless honor have gained him universal praise; and now the country that has been writhed through half the organs of the press in England during the last three years, and was pointed out, too, as an example to be shunned by many of your statesmen, that country, now in mortal strife, affords a haven and a home for multitudes flying from the burdens and the neglect of the old Governments of Europe—(cheers)—and, when this mortal strife is over—when peace is restored, when slavery is destroyed, when the Union is cemented afresh, for I would say in the language of one of our own poets addressing his country,

"The grave's not dug where traitor hands shall lay,  
In fearful haste thy murdered core away,"  
(loud cheers), then Europe and England may learn that an instructed democracy is the surest foundation of Government, and that education and freedom are the only sources of true greatness and true happiness among any people. (Immense cheering.)

DEATH OF COMMODORE VAN BRUNT.—Commodore Gershom Van Brunt died at Dedham Thursday. He was a native of New Jersey, from which State he entered the navy, and was one of the veterans of the service, having entered it in 1818, or forty five years ago. He was 63 years of age. His last sea duty was in command of the Minnesota, which sailed from this port in the early stage of the rebellion, and under the Commodore took an important part in the reduction of the Hatteras forts and in the severe and trying blockade service at Hampton Roads.

He was subsequently entrusted by the Government with the supervision and equipment of Gen. Banks' New Orleans expedition, and at the time of his death was acting under the orders of the War Department as Inspector of Transports for the New England District. The Transcript says of him:

"Uniting the perfect and accomplished address of the gentleman with the intelligent ability and zeal of the officer, and maintaining throughout his long career in the service an unselfish and unwavering fidelity and devotion to his profession and his country, he was constantly selected for trusts of moment and responsibility. He leaves a faithful and stainless record, and his loss will be felt far beyond the immediate circle of his family, friends and naval companions."—Boston Journal.

A lady who had read of the extensive manufacture of odometers to tell how far a carriage had run, said she wished some Connecticut genius would invent an instrument to tell how far husbands had been in the evening when they just step down to the post-office!

Many who repent of public life and retire to obscurity, repent of their repentance, and long to retire from their retirement.

#### The Old Scotchman.

I never drink a cup of water without thinking of an old Scotchman who, when I was a boy in the city of New York, acted as porter for the establishment in which I was engaged. He must have been very poor. For then, full sixty-five or seventy years old, he was employed day after day in dragging his little handcart, often laden with heavy burdens, over the stony pavement.

In our store was a stone jar replenished daily with pure water and ice, and many a time during the day the old man would come to drink. When he had filled the cup he would take off his worn cap, and, while his thin, gray locks fell over his forehead, lift up his face with closed eyes for a moment, with reverential aspect and in silent prayer, and then drink. No matter what haste, or who observed, he always did the same.

Since then it is twenty-five or thirty years. I have drank from the icy pools that gather on the surface of the glaciers of Switzerland, and amidst the burning splendors of Vesuvius, in his own Scotland, and on the stormy sea, but very rarely, or ever, without thinking of that old Scotchman, or, admonished by him, with our lifting my heart in gratitude to God. One thing is remarkable: I cannot drink with my hat on. The white locks of the old man seem to shake themselves before me as if to admonish me of irreverence, and his meek eye to be lifting itself up to God to plead that I may not forget the Giver.

Without doubt the old man has been many years in heaven. But how that little habit of his has wrought itself into my life, and how to me he has been for more than a quarter of a century, day by day, by that little act, a preacher of righteousness!

## HOSTETTER'S CELEBRATED STOMACH BITTERS.

A pure and powerful Tonic, corrective and alternative of wonderful efficacy in disease of the

Stomach, Liver and Bowels.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Chills, Spasms, and all Complaints of either Sex, arising from Bodily Weakness whether inherent in the system or produced by special causes.

Nothing that is not wholesome, genial and restorative to its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical elements; no fiery exhalant; but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.

It will be to be forewarned against disease, and, so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with FEVER AND AGUE, it has been found infallible as a preventive and irrefragable as a remedy and thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are by a very brief course of this marvelous medicine. Fever and Ague patients, after being pilled with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in case of DYSPEPSIA and in less confirmed forms of INDIGESTION. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the CONSTIPATION superinduced by irregular action of the digestive secretory organs.

Persons of feeble habit, liable to Nervous Attacks, Loss of Spirit and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of BITTER COLIC is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

As a General Tonic, HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated. In case of Constitutional Weakness, Premature Decay and Debility and Decrepitude arising from Old Age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-energize and re-establish them.

Last, but not least, it is The Only Safe Stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

No family medicine has been so universally, and, it may be truly added, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

Prepared by HOSTETTER & SMITH, Pittsburgh, Pa.

## NEWS FOR THE MILLION!

ANOTHER

GREAT MYSTERY SOLVED!

GREATEST NOVELTY

OF THE AGE.

Dr. J. C. Plimmer's

A. R. BILLS

TAKES pleasure in informing his many friends and patrons that he is now prepared to furnish all kinds and quantities of HOOTS manufactured upon these CELEBRATED LASTS, which are the latest and most improved pattern yet brought before the public.

The Anatomical Last

is truly constructed upon scientific principles, constructed in accordance with the bony ligamentous construction of the bottom of the foot, an entirely new principle and a great improvement on the old style of BOOT AND SHOE LASTS.

The principles herein suggested and followed out by careful and patient reasoning and experiment has now for the first time been practically and fully developed and applied. They produce a HOOT and SHOE perfectly comfortable and easy at first, no matter how thick or substantial the soles, and the importance of this for predestinate purposes cannot be exaggerated, and conferring advantages which can be most sensibly appreciated by those who suffer from TAPPA PAIN.

Those who have once had an opportunity to test the real advantages of these Philosophically made HOOTS, will hardly be reconciled to wear any other. As one exclaims: "To all persons who wish to have a real fitting HOOT and one in which they can take solid comfort I would say try this Last, and they will cry,

THE HALF HAS NOT BEEN TOLD."

In short, this LAST is MADE TO FIT THE FOOT.

Sample HOOTS

can be examined and by putting on a HOOT any one can be convinced of the decided benefits of the new last.

The best brands of Stock are worked at this

**CAUTION.**—It has been estimated, that over

HUNDRED THOUSAND DOLLARS are paid to swindlers annually, in New England alone, without any special effort on the part of the police to detect them. Without inquiry, to men who are alike destitute of force, character, and skill, and whose only recommendation is their own false and extravagant assertions, the money of the honest is entrusted. The man of big bungledesign, like no man's word, no matter what pretensions he, may **MAKE INQUIRY**—it will cost nothing and may save you many regrets; for, no advice is so common, as to "ask the man," and no man is so unsafe in trusting any of them, unless you know what they are.
